Freelance Stylist and Writer Valeria Carrano left the skyscrapers of New York one year ago for the Lemon Groves on Italy's Amalfi Coast. She began managing a yacht and speedboat charter company, Exclusive Cruises, and it has become an overnight sensation- captivating the A-listers and their travel agents vacationing along the Amalfi Coast, Positano and the island of Capri.

Exclusive Cruises creates customized tours and packages with a variety of speedboats and yachts for every budget. Before any excursion is sold or created it is tested and methodically planned by Valeria and the fleets' captains, who have an expert, but more importantly, a local knowledge of the area.

"The absolute best thing about Exclusive Cruises is that we are a balanced mix of American and Italian qualities. We run the business with the efficiency and attention to detail that some may call American qualities, but with the passion for beauty, life and luxury that others would call Italian qualities. This is the ideal recipe for a perfect client experience from the booking process all the way through to the last minute that our guests are on board with us!" says Valeria.

Exclusive Cruises offers private water transfers as well as day charters along the Amalfi Coast, island of Capri, thermal baths in Ischia and the many kilometers of the beautifully untouched Cilento Coast. They also offer overnight trips aboard some of their yachts.
